Journal of Ethnobiology
INDEX TO KEY WORDS
Volume 6, Number 1 through Volume 15, Number 2

JENNIFER SEPEZ
Department of Anthropology
University of Washington
Seattle, WA 98119

An index to Volumes 1 through 5 appeared in Volume 5, Number 2. Following that format, all entries indicate the entire article rather than specific pages within an article. The volume number appears in bold, followed by the page numbers. The year the volume was published can be calculated by adding 1980 to the volume number, thus volume 6 was published in 1986. Copies of this index are available at a cost of $5.00 from the Secretary/Treasurer of the Society of Ethnobiology (see inside front cover of most recent issue). Make checks payable to Journal of Ethnobiology. In some cases, back issues of the Journal of Ethnobiology may be available (see subscription information on the inside back cover).
